

The image features a blue gradient background with a bright star in the upper left corner. In the lower half, three silhouettes of wise men on camels are shown in profile, facing right. The text 'The Three Wise Guys and the Star of Bethlehem' is centered over the scene.

The Three Wise Guys and the Star of Bethlehem

Introduction

- The traditional story of the wise men can be seen in any nativity scene during the Christmas holiday season.
- First, it is assumed that there are three wise men because three gifts are offered in verse 11. We don't know for sure how many wise men there actually were.
- Second, these men find Jesus in a house as a young child (verse 11) not as a new born baby lying in a manger as the Sheppard's did.
- Most people just have a surface understanding of what is occurring in Matthew chapter 2. This morning I want to study this passage in order to better understand this

Introduction

- There are three issues related to the wise men that I want to look at this morning:
 - 1) the nature of the star
 - 2) how did these gentiles from the east know when they saw this star that it signified the birth of the king of the Jews
 - 3) what can we learn by Christ by studying the nature of the gifts presented by the wise men.

Characteristics of the Star

- Skeptics doubt the reliability of the Scriptures and have questioned the nature of the star itself. Naturally they have sought to explain these events using natural rather than supernatural explanations.
- Some of their explanations include:
 - 1) Star exploding in the heavens,
 - 2) Bright light caused by the alignment of the planets,
 - 3) Meteor or comet of some sort.
- Matthew 2:1-2—“his star” This indicates that the star belonged to the King of the Jews.
- Numbers 24:15-17—According to prophecy there would come a star out of Jacob that would bear the scepter. What are the wise men looking for? He who was born king of the Jews.

Characteristics of the Star

- Matthew 2:1-2—Also notice the use of the past tense “have seen.” When the wise men were still in the east they saw his star.
- Matthew 2:7-8—Wants to know the time the star first appeared.
- Matthew 2:9—Notice that the star, which they had seen in the east reappears. It comes back when they leave the road and guides them to the house where Jesus was being born.
- This star was not a natural occurrence but a supernatural one. Notice its three characteristics:
 - 1) showed direction—appeared in the exact place where Christ was located
 - 2) It went away and then came back
 - 3) The star had to be able to come near a physical structure

Characteristics of the Star

- Exodus 40:34-38—The appearance of the glory of the Lord was a visible assurance to Israel that God was with them on their journeys. The glory of the Lord was also present at the birth of Emmanuel (God with us).
- Exodus 13:21-22—Just as the glory of the Lord brought Israel through the wilderness, it led the wise men first to Jerusalem and then to Bethlehem.
- Exodus 3:2-3—If the glory of the Lord could rest upon a bush and not consume it, then it could rest in the house where Christ was and not consume it.
- Luke 2:8-14—When the angels saw the Lord appear to the shepherds the glory of the Lord appeared along with him.
- Angels are commonly referred to as stars, Revelation

How Did the Wise Men Know?

- Matthew 2:3—Notice that these gentiles magicians no more about what is going on with Israel's king than she does.
- How is it that these gentiles while at home in the East see the glory of the Lord that was present the night Christ was born and decide to make this journey? How did they know that the star they saw while standing the east signified the birth of the King of the Jews?
- The only possibly conceivable answer is that they possessed a copy of the book of Daniel.
- In Daniel Chapter 9 God lays out a prophetic calendar for the nation of Israel that includes an exact dating system for when their Messiah would arrive in

7 Weeks (49 Years)

- Nehemiah 2:1-4
- March 14, 445 B.C.
- Edict is Issues to Rebuild Jerusalem

445 B.C.

396 B.C.

62 Weeks (434 Years)

- After 69 weeks Messiah was to appear in Jerusalem
- Luke 19:28-40
- Took place on April 6, 32 A.D.

7 Weeks
(49 Years)

The Body of Christ

- Because of Israel's unbelief God inserted a previously unpredicted time period into the prophetic sentence.
- The Dispensation of the Grace is the subject of the prophecy which God fulfilled since the vision began.
- Revealed in the writings of Paul

Significance of the Magi's Gifts

- Before the Magi's visit Mary and Joseph are dirt poor. There is no way they can afford to take the trip into Egypt they will shortly be required to take.
- Luke 2:21-24—turtledoves and pigeons because they cannot afford to purchase a lamb. Lev. 12:1-6
- Gold—represents the highest material value; frankincense represents the highest spiritual value; hence the gifts of gold and frankincense were placed in the manger. The articles in the tabernacle were all covered with gold. A Messiah-King of divine origin would need gold. Gold is given to the king of the Jews to acknowledge him as God's chosen ruler.
- Frankincense—this gift concerns the priesthood (Exodus 30:34-38), these gifts indicated who Christ was

Significance of the Magi's Gifts

- Myrrh—is an embalming fluid (John 19:39), Jeremiah depicts Christ as coming to die, was in the office of a prophet (Deut. 18:15-17, Matthew 21:11) Jesus Christ came as a prophet and died as a prophet during his first coming and will come as a king and priest in his second.
